

HIMADRI SHEKHAR GOSWAMI

Full-Stack Web & AI Developer

Jamshedpur, India | hsg090907.jsr@gmail.com | +91 9942868093 | <https://celi.me> | github.com/celicular

PROFESSIONAL SUMMARY

Full-Stack Developer with 4+ years of hands-on experience building AI-driven applications and scalable web systems. Delivered 20+ projects across a global client base through an independent practice, generating over ₹5 Lakhs in revenue. Proficient across the full development lifecycle — from architecture and API design to VPS deployment and production monitoring. Focused on high performance, data privacy, and measurable real-world impact.

TECHNICAL SKILLS

Frontend & Mobile: React, Next.js, Flutter, Three.js, WebGL

Backend & APIs: Node.js, FastAPI, Python, SQL, MongoDB, WebSockets, REST API Design

AI & Machine Learning: NLP, RAG, LLM Integration, Computer Vision, PyTorch, Model Deployment

Infrastructure & DevOps: Docker, VPS Management, Linux, Git, CI/CD Pipelines

Languages: English (Advanced), Hindi (Advanced), Bengali (Proficient), Oriya (Proficient), Japanese (JLPT N2)

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer 08/2025 – Present

Rely On Us Digitally (Remote) Hazaribagh, Jharkhand

- Lead development of scalable web platforms using React, Next.js, and FastAPI for a high-growth startup.
- Architect secure API layers and manage VPS deployments, maintaining 99.9% uptime under concurrent user load.

Freelance Web Developer 04/2021 – Present

Hs Web Solutions Jamshedpur, Jharkhand

- Delivered 20+ high-quality, bespoke web solutions to a global client base across industries since 2021.
- Generated over ₹5 Lakhs in revenue by building custom MERN stack applications and workflow automation tools.

Mobile App Development Intern 05/2025 – 06/2025

Ardent Computech Salt Lake, Kolkata

- Built an AI-integrated e-commerce application using Flutter for cross-platform deployment on iOS and Android.
- Integrated machine learning models for personalized product recommendations and intelligent search filtering.

TECHNICAL PROJECTS

CensorAI — Real-Time Content Moderation

- Engineered an AI-powered moderation engine using NLP and Computer Vision to detect offensive material in video content.
- Delivered high-accuracy, low-latency automated moderation, significantly enhancing platform safety.

Clarity ERP — Event-Driven Business Management Platform

- Developed a scalable ERP platform built for high concurrency using Next.js and WebSockets for real-time data synchronization.
- Reduced manual inventory tracking time by 60% for multiple SMB clients through streamlined operational workflows.

Lets Learn — Privacy-First Offline AI

- Built an offline Retrieval-Augmented Generation (RAG) system enabling document chat and semantic search via local LLMs.
- Delivered a fully secure, internet-independent learning environment ensuring strict data sovereignty for users.

Cap-2-Easy — Multilingual Captioning Tool

- Developed a Python automation tool leveraging state-of-the-art speech-to-text models for efficient multilingual caption generation.
- Accelerated content creation workflows, saving creators hours of manual transcription and editing per project.

Quantum — 3D Data Visualization Interface

- Designed an immersive web experience using Three.js and WebGL to interactively visualize complex quantum physics data.
- Improved spatial comprehension of abstract concepts through high-fidelity, real-time interactive 3D models.

EDUCATION

Diploma in Computer Science 05/2026

Arka Jain University Jamshedpur, Jharkhand

- Maintaining a CGPA of 9.0+ while actively contributing to university-level technical innovation labs.

High School Diploma — ICSE Board 12/2022

Loyola School Jamshedpur, Jharkhand

- Graduated with First Division and Distinction in Science, Mathematics, and Computer Applications.

HONORS & AWARDS

Winner — <Code 300/> 02/2026

Arka Jain University Jamshedpur, India

- Secured 1st place as a solo participant in a competitive coding sprint, completing all challenges with 100% efficiency.

Winners — IDS Hackathon 2026 03/2026

Yi and Yuva Regional Level

- Achieved 2nd place for designing a real-time technical solution to optimize regional logistics networks.

CERTIFICATIONS

Python Development with AI/ML — Udemy 03/2023

First Aid & Basic Life Support — Asian Fire Service Association 11/2022

PERSONAL INTERESTS

Robotics & Automation • Competitive Gaming • Badminton • Automotive Engineering • Travelling
